7. A few Scenes From the Assasinations Made in Ana- tolia By the Greeks .....	39

## F O R W A R D

This book called "Greeks Murderer of Turks" is composed of six parts. Each part is an evidence and document for yesterdays disasters, tortures, rapes and massacres and occupation of our national territories.

Besides, in this book the events take place as in a scenario, the children of two different nations on the Turkish Territories once lived and played as if they were brothers but later on they were cheated by the "Megola Idea" and directed against the Turkish Community starting to cause bloody memories, various murders.

And also you will observe and see more different confessions in the part, heading "The will of a Greek". It goes like this: a Greek living in Istanbul is later on called to Athens. He is there, trained by various institutes and sent to Istanbul again. There he, makes propoganda activities against Turks and also cary out other activities. He becomes a prison guard and a executioner. He kills the Turks by cutting their ears and noses. He tortures Turks very much. Finally, his friend comes up whom which they were together before. He also kills him without a pitty. When he was about to kill a father and his doughther he feels sorry and writes a will to his son.

Briefly this book is a condensed teller of, the disasters of that times. It is for sure that by this book and also the publications of the others some other dark pages would also be coming to daylight.
