WORLD MINORITIES

A new series of Reports by authoritative writers on the situation of 33 Minorities in many parts of the world. Analytical and objective accounts of the plight of some of the world's minority peoples and their position within the host communities.

The editor, Georgina Ashworth, is Research Director of the Minority Rights Group. She has lived, worked and travelled in East and Western Europe, the Middle East, Africa and North America. The Group (36 Craven St., London WC2) has as its aims:

To secure justice for minority or majority groups suffering discrimination, by investigating their situation and publicising the facts as widely as possible, to educate and alert public opinion throughout the world.

To help prevent, through publicity about violations of human rights, such problems from developing into dangerous and destructive conflicts which, when polarised, are very difficult to resolve.

To foster, by its research findings, international understanding of the factors which create prejudiced treatment and group tensions, thus helping to promote the growth of a world conscience regarding human rights.
